

ONCOLOGY NURSING ACADEMY

Specialty education and development in cancer care—customized and needs-based

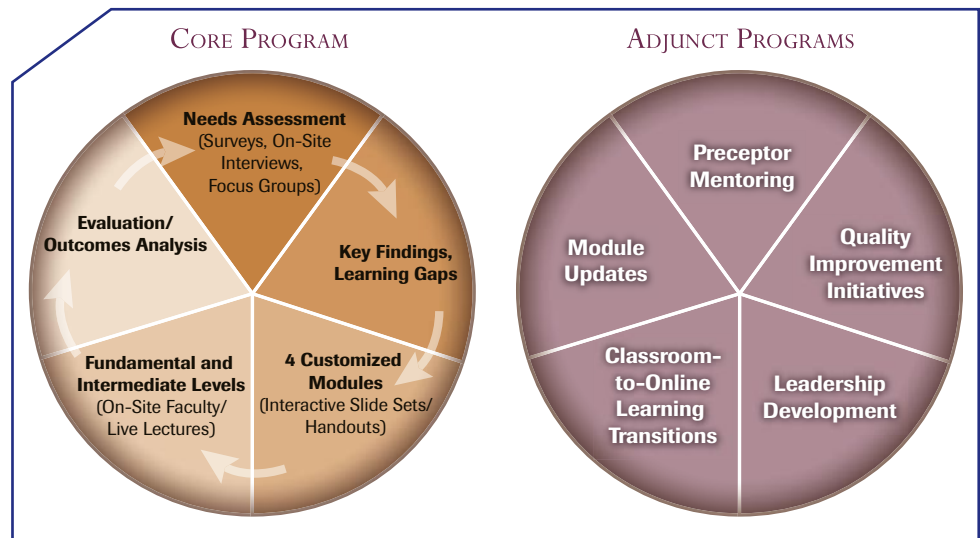

Are your specialty education needs comprehensive or focused?

◆ Core program:

- Identifies needs and learning gaps
- 4 customized modules
- Evaluation and outcomes analysis: fundamental, intermediate, and advanced

◆ Adjunct programs:

- Preceptor Mentoring
- Quality Improvement Initiatives
- Leadership Development
- Classroom-to-Online Learning Transitions
- Module Updates

What can you gain by upgrading your oncology education for nurses?

You will equip staff to thrive professionally in a complex, rapidly changing oncology environment:

- ◆ Satisfy staff needs for on-site, accredited CE programs to supplement a generic orientation
- ◆ Keep oncology-specific skills and knowledge up to date
- ◆ Facilitate nurse recruitment and retention
- ◆ Fulfill regulatory or accreditation requirements for staff education
- ◆ Enhance oncology patient safety and satisfaction
- ◆ Prepare staff to be effective communicators and educators
- ◆ Provide valuable resources that may not be internally available
- ◆ Streamline service delivery processes and enhance cost efficiency

ONCOLOGY NURSING ACADEMY

Specialty education and development in cancer care—customized and needs-based

Who is served by this program?

The program is offered to community-based hospitals and health care systems to benefit:

- ◆ Nurses—whether beginning or experienced
- ◆ The cancer care team
- ◆ The hospital system
- ◆ Patients and caregivers

Why choose the Oncology Nursing Academy?

You will access the oncology nursing expertise of 2 organizations with outstanding credentials and collectively over 200 years of experience in cancer care.

- ◆ The **Meniscus Educational Institute**, a trusted, accredited provider of continuing education for 15 years. In 2008, MEI was among the 5% of CME providers awarded 6-year accreditation with commendation, the highest level achievable from the ACCME. MEI is also an ANCC- and ACPE-accredited provider of nursing and pharmacy CE. MEI's nursing education director is an oncology nursing expert with 25 years of clinical and educational oncology experience.
- ◆ **The CHE Consulting Group, Inc.**, is an innovative health care consulting company and sophisticated resource for health care delivery, education, and research. Led by an oncology nursing expert with over 35 years of clinical and administrative oncology experience, and comprising recognized nursing, pharmacy, and medical specialists, The CHE Group has a proven track record of success, over the past 2 decades, advising numerous health care organizations, including community hospitals and cancer centers, oncology medical practices, academic institutions, group purchasing organizations, and pharmaceutical and medical education companies.
